The screenshot shows the homepage of the Guizhou Geology online submission system. At the top right, it displays the journal's ISSN (1000-5943) and CN (52-1059/p). Below this, there is a list of databases the journal is indexed in: CAJCED, China Core Journal Selection Database, China Journal Full-text Database (CJFD), China Science and Technology Journal Database, China Journal Network, and China Academic Journal (Optical Disc Edition) Full-text Collection. The main content area features the journal's logo ('贵州地质' in Chinese characters and 'GUIZHOU GEOLOGY' in English) and a large image of a geological landscape. On the left, there is a sidebar with user login options: Author Login, Submission Login, Editor Login, and Reader Login. Below this is a 'User Guide' section with links to 'Remote Submission Guidelines', 'Author Functions', 'Submission Functions', and 'Common Problem Solutions'. A 'Friendship Links' section includes links to the 'Guizhou Provincial Geological Survey and Mineral Resources Development Bureau' and the 'Guizhou Geological Society'. The central part of the page shows the latest issue (2017年第4期) with several articles listed. Each article entry includes the title, author(s), publication date, abstract link, and PDF download link. To the right of the article list is a thumbnail of the journal cover from 1984 and sections for 'Latest Announcement' and 'Ranking'.
