

《中国矿产地质志·贵州卷》

成果专辑

目次

贵州主要沉积盆地类型及其成矿作用	王砚耕 / 329
贵州浅层构造变形与成矿	王砚耕 / 335
贵州雪峰至加里东旋回构造演化与区域成矿规律	陶平, 陈建书, 白培荣 / 344
贵州外生及内生外成矿产矿床类型与成矿作用	陈启飞, 陶平, 李朝晋 / 353
贵州内生矿产矿床类型及成矿作用	白培荣, 陶平 / 362
峨眉地幔柱与西南(贵州)晚二叠世成煤条件及成煤区带划分探讨	刘远辉, 邓克勇, 陈启飞 / 371
贵州磷矿成矿规律研究进展与展望	陈国勇, 陈仁, 杜远生, 等 / 378
贵州西南部萤石矿成矿规律及找矿前景探讨	李朝晋, 龚桂源, 徐安全 / 389
贵州省主要黑色页岩层页岩气成藏规律及找矿潜力	卢树藩, 何犇, 罗香建, 等 / 398
贵州饰面石材产出特征及资源潜力	陈明华, 邓毅, 蒋良兵, 等 / 408
贵州硅质原料类矿产地质特征及找矿方向	徐瑶, 陈启飞, 白培荣, 等 / 418
2023 年第 40 卷 总目录(1-4)	本刊编辑部 / 425

Results Volume of ‘Geology of Mineral Resources of China Guizhou Volume’

Contents

The Main Types of Sedimentary Basins and Their Mineralization in Guizhou	WANG Yan-geng / 329
Shallow Tectonic Deformation and Mineralization in Guizhou	WANG Yan-geng / 335
Tectonic Evolution and Regional Metallogenic Regularity of Xuefeng-Caledonian Cycle in Guizhou Province	TAO Ping, CHEN Jian-shu, BAI Pei-rong / 344
Types and Mineralization of Exogenic and Endogenic Exogenic Mineral Deposits in Guizhou	CHEN Qi-fei, TAO Ping, LI Chao-jin / 353
Types and Mineralization of Endogenous Mineral Deposits in Guizhou	BAI Pei-rong, TAO Ping / 362
Discussion of Emei Mantle Plume and Late Permian Coal Forming Conditions and Coal Forming Zones in Southwest (Guizhou)	LIU Yuan-hui, DENG Ke-yong, CHEN Qi-fei / 371
Research Progress and Prospect on the Mineralization Regularity of Phosphate Deposits in Guizhou	CHEN Guo-yong, CHEN Ren, DU Yuan-sheng, et al / 378
Discussion on Metallogenic Regularity and Exploration Prospecting of Fluorite Deposit in Southwest Guizhou	LI Chao-jin, GONG Gui-yuan, XU An-quan / 389
The Reservoir Forming Law and Prospecting Potential of Shale Gas in the Main Black Shale Layers in Guizhou Province	LU Shu-fan, HE Ben, LUO Xiang-jian, et al / 398
Occurrence Characteristics and Resource Potential of Facing Stone in Guizhou Province	CHEN Ming-hua, DENG Yi, JIANG Liang-bing, et al / 408
Geological Characteristics and Prospecting Direction of Raw Materials Siliceous Such as Minerals in Guizhou Province	XU Yao, CHEN Qi-fei, BAI Pei-rong, et al / 418
